I would like to appeal the determination below. The option on the window in question is not manufactured and sold by (b) (4). This was a simulation done for test purpose's to see what happens to the values when using different materials. I am requesting that energy star allows us to retest the same window line with options that we sale. I am requesting a conference call to review my case.

Thanks,

(b) (4)

Subject: ENERGY STAR Dispute – EPA disqualifying (b) (4) (Case #: WDS01-2018-01)

Dear (b) (4):

EPA has completed its review of (b) (4) testing failure dispute, and determined that (b) (4) will be disqualified from the ENERGY STAR Program.

The (b) (4) dispute states that (b) (4)

(b) (4)

Because the model is designated as an ENERGY STAR product option in the National Fenestration Rating Council's listing of ENERGY STAR certified products, and was custom-built for ENERGY STAR verification testing, the product's tested performance will be recognized and the model and all affected options will be disqualified from ENERGY STAR.

Organizations responsible for ENERGY STAR products that are disqualified through ENERGY STAR verification testing are required to submit confirmation of product control measures ("PCM") taken to control the sale, distribution and promotion of the affected units in the marketplace.

(b) (4) submittal of PCM is due by (b) (4) and should be made using the standard Partner Response Form ("PRF") available at www.energystar.gov/prfnd. Upon review of (b) (4) proposed PCM, EPA will notify (b) (4) whether they are acceptable. If (b) (4) seeks to deviate from the proposed PCM, it must notify EPA prior to doing so.

Please submit (b) (4) completed PRF and any supporting documentation to enforcement@energystar.gov. **All communication regarding this notice must include the appropriate case number WDS01-2018-01 in the subject line.**

As the ENERGY STAR name and logo are registered marks belonging to the U.S. government, EPA must ensure they are used correctly to protect the integrity of the program they represent. Any partner that uses the name and/or logo improperly and fails to take product control measures per EPA's request may be subject to termination of its ENERGY STAR Partnership Agreement, and referred to EPA's Office of General Counsel.

Thank you for your prompt attention to this matter and your continued support of the ENERGY STAR program.
